GEN. CHAFFEE AS MILES' SUCCESSOR

President Relieves Gallant Officer From Further Philippine Service.

OPTION AS TO HOME COMING

Move Taken as a Significant One-Given His Choice, He Accepts Department of the East for Command-Thanks the Chief Executive.

By direction of the President, Ger Adna R, Chaffee, who for the past two years has seen service with the American army in the Philippine Islands, was relieved from further duty in the archi pelago yesteray.

This action was taken after General Chaffee's wishes in the matter had been secured. Some days ago Secretary Root under direction of the President cabled General Chaffee to ascertain whether, in view of his arduous duties in the Philippine campaign, he preferred to remain in the archipelago or to return to the States and take command of the department of the United States army at Chicago or at New York.

Chooses New York.

In his reply General Chaffee stated that he was entirely at the command of the officials in the United States; that their wishes would be entirely pleasing to him, but that if it should be the pleasure of the President to order his return to the United States and he were given the selection of his post as between New York and Chicago, he would prefer the assignment to command the Department of the East, with headquarters at New York.

In his cablegram to the department General Chaffee thanked the department for the unusual courtesy extended in having allowed him to express a pref-erence as to the post at which he is to serve on his return.

General Chaffee has been in the Phil-ippines off and on for several years, and his record has been practically a series of brilliant performances in which his training as an American soldier has shown its greatest result. As an officer and as a man, General Chaffee has demonstrated to all who have read of his achievements that the Adminis-tration picked "the right man for the

when they selected him to command the American troops sent to China during the recent trouble with the Boxers in that vast empire.

His wonderful show of not only military but administrative and executive ability appealed to those in control of the military affairs of the United States, but assured them that he was a man who could be relied upon under the most trying circumstances.

How well he has con-ducted the duties assigned to him ap-pears from the request of Mr. Rosni-velt, in which he is asked whether or not the commandant of the military in the archipelago wishes to come to the States for what may perhaps and as a States for what may perhaps, and as a matter of fact is, an easier berth and the soldier's reply 'ff I am no needed where I am now engaged, the I should be glad to come to New York. and it may be added for a much need and deserved rest from duties that hav been both trying and arduous.

Young Men Needed.

At the War Department yesterday, in accordance with the wishes of President Roosevelt that young men are best suited for executive and other important work in both the army and mayy, the following order was issued by his di-

General Davis has during his service performed a wide range of daties. Suspicion Not Warranted.

General Chaffee, in a graphic recital, portrays the sufferings to which Waller and his men were subjected. To the cry for food the cargadores, it is alleged, did not efficiently respond, "and the suspicion arose in the minds of the starving men," he continues, "that the cargadores were conniving at their destruction; a suspicion not warranted by actual facts as they now appear on record.
